Street Kids Kristina E. Gibson, 2011-05-09 Street outreach workers comb public places such as parks vacant lots and abandoned waterfronts to search for young people who are living out in public spaces if not always in the public eye Street Kids opens a window to the largely hidden world of street youth drawing on their detailed and compelling narratives to give new insight into the experiences of youth homelessness and youth outreach Kristina Gibson argues that the enforcement of quality of life ordinances in New York City has spurred hyper mobility amongst the city s

street youth population and has serious implications for social work with homeless youth Youth in motion have become socially invisible and marginalized from public spaces where social workers traditionally contact them jeopardizing their access to the already limited opportunities to escape street life The culmination of a multi year ethnographic investigation into the lives of street outreach workers and their kids on the streets of New York City Street Kids illustrates the critical role that public space regulations and policing play in shaping the experience of youth homelessness and the effectiveness of street outreach *Children on the Streets of the Americas* Roslyn Arlin Mickelson,2002-06-01 First published in 2000
