From Zamolxis To Jan Palach:

From Zalmoxis to Jan Palach Kurt W. Treptow, 1992 These essays and studies of East European history emphasize intellectual and ideological evolution *Vlad III Dracula* Kurt Treptow, 2022-07-01 The fifteenth century Romanian Prince Vlad III Dracula also known as Vlad the Impaler is one of the most fascinating personalities of medieval history Already during his own lifetime his true story became obscured by a veil of myths As a result he has been portrayed both as a bloody tyrant who degenerated down throughout the centuries into the fictional vampire of the same name created by Bram Stoker at the end of the nineteenth century and as a national and Christian hero who bravely fought to defend his native land and all of Europe against the invading Turkish infidels Even in more recent historiography the true history of Dracula has been obscured by Communist and nationalist historiography Politics and Suicide Nicholas Michelsen, 2015-10-08 Politics and Suicide argues that whilst the historical lineage of suicidal politics is recognised the fundamental significance of autodestruction to the political remains under examined It contends that practices like suicide bombing do not simply embody a strange or abnormal suicidal articulation of the political but rather that the existence of suicidal politics tells us something fundamental about the political as such and thinking about political violence more broadly Recent world events have emphatically shown our need for tools with which to develop better understandings of the politics of suicide Through the exploration of several arresting case studies including the Kamikaze bombers of World War Two Jan Palach's self immolation in 1969 Cold War nuclear deterrence and the suicide terrorist attacks of 9 11 Michelsen asks how we might talk of a political suicide in any of these contexts The book charts how political processes go suicidal and asks how we might still consider them to be political in such a case It investigates how suicide can function as politics A strong contribution to the fields of philosophy and international relations theory this work will also be of interest to students and scholars of political theory and terrorism political violence **Making Sense of Suicide Missions** Diego Gambetta, 2006-09-21 Suicide attacks are a defining act of political violence and an extraordinary social phenomenon This book investigates the organizers of suicide missions and the perpetrators alike Provided by publisher *Books In Print 2004-2005* Ed Bowker Staff, Staff Bowker, Ed, 2004 **Occupying Subjectivity** Chris Rosedale, 2017-10-02 This book explores a variety of forms of radical political subjectivity It takes its cue from the 2011 uprisings in the Middle East and North Africa the Occupy Movement and the European Anti Austerity Movement alongside the wider opposition to authoritarian and neoliberal forms of governance from which they sprang in order to ask an urgent series of questions about the subject of radical politics Who or what is it that engages in resistance Who or what should they be And how are we to negotiate the many complexities of that second question The contributions drawing on a wide range of theoretical traditions offer a rich series of provocations towards new ways of conceptualising evaluating and imagining radical political praxis They engage different kinds of subjects including protestors dancers self burners academics settlers and humans in order to think through the ways in which contemporary

subjects are constituted within and work to unsettle dominant relations of power Together the chapters open up spaces to think about how political and intellectual commitment to social change can be enlivened through attention to the subject of radical politics This book was published as a special issue of Globalizations

The American Bibliography of Slavic and East European Studies ,1992 Provides information on East Central Europe and the former Soviet Union Scanderbeg A.K. Brackob,2020-05-01 The struggle of the Albanian people led by George Castriota Scanderbeg to defend Europe against the assault of the Ottoman Turks has been much celebrated For a quarter of a century from 1443 until his death in 1468 he used his military prowess to thwart the efforts of the most powerful Empire in the world at the time to subdue his tiny country One of the true heroes of the Middle Ages in Europe unfortunately the remarkable story of Scanderbeg remains little known outside of Albania George Castriota defended Europe for a quarter of a century and it can rightly be said helped to save Western civilization from being overrun by Islam and suffering the same fate as the once mighty Byzantine Empire This book examines the genius and remarkable achievements of Scanderbeg who helped shape the identity of the Albanian people and reveals the important contribution this small but proud nation has made to European civilization Although the challenges have changed over the centuries the clash of civilizations which the history of the Albanian struggle to fend off the Islamic onslaught illustrates continues today As a result it is all the more worth noting the contribution that this tiny land led by Scanderbeg made in the fight to preserve Western culture and civilization Equally important is the example set by the Albanian people in ultimately harmonizing these two great civilizations A K Brackob has a Ph D in history from the University of Illinois at Urbana Champaign He is a specialist on the history of southeastern Europe during the Middle Ages and author of *Mircea the Old Father of Wallachia Grandfather of Dracula* *Divinity and History* Thomas Harrison,2000 Critics of Herodotus have generally shown an unease in the face of the religious passages of the Histories a sense that he lets himself down by delving into matters irrelevant to the proper purpose of history They have tended consequently to latch on to isolated instances of scepticism in an attempt to vindicate Herodotus from imagined charges of obscurantism Historians of Greek religion on the other hand by their concentration on ritual as the central feature of Greek religious experience have often neglected the value of literary sources as evidence of religious belief indeed the term belief has become something of a dirty word In this book the first full length study of the subject in English Dr Harrison not only places Herodotus religious beliefs at the centre of his conception of history but by seeing instances of scepticism and of belief in relation to one another redresses the recent emphasis on the centrality of ritual and paints a picture of Greek religion as a means for the explanation of events *Romanian Civilization* ,2000 The American Bibliography of Slavic and East European Studies for 1994 Patt Leonard,Rebecca Routh,1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs **Humanities Index** ,1995 **National**
