*Foreign Relations of the United States* United States. Department of State, 1949      **The Eve of Paramour** Gaston Vilare, 2022-08-01 The Eve of Paramour is a mythical and romantic exercise dealing with the ontological identities of a fragmented Haitian people facing the disintegration of its homeland Guided by a phenomenology of questions as the biological Big Bang of culture a poetic manifesto and a myth of inspiration it seeks to create a mythical universe to replace the myths of the homeland threatened by degradation Polarized between desolation at home and nostalgia abroad it attempts nonetheless to offer a utopian metaphysical solution to help with the restoration of a common identity for Haitians everywhere Written in a disjunctive and often nihilistic postmodern trend it mirrors the wretched and chaotic states governing the nation of Haiti today Although inspired by the Haitian condition The Eve of Paramour finds universality in the existential ontological crisis facing all refugees and their descendants who have had their homelands destroyed by dictators wars and natural disasters      **Adult Suffrage and Political Administrations in Jamaica 1944-2002** Trevor Munroe, Arnold Bertram, 2006 Since 1944 the Jamaican people without ethnic or religious strife civil war military coup one party dictatorship assassination of political leaders insurgency or genocide have voted out governments and voted in opposition parties in free and fair elections a record in democratic governance equalled by only a handful of states worldwide In this volume Adult Suffrage and Political Administrations in Jamaica 1944 2002 Trevor Munroe and Arnold Bertram both active participants in this process document critical aspects of this record Key features include the elections through which the consolidation of democracy occurred the representatives their gender education occupation age whom the people chose to form 13 successive governments and parliaments the laws that the legislature passed and the institutions governments established in building a modern democratic state advances and failures political economic social and cultural of each administration comparison of the performances of successive administrations and the critical challenges facing the Jamaican people and the new leaders BOOK JACKET      Department of State Publication , 1975      *Gender, Power, and Military Occupations* Christine De Matos, Rowena Ward, 2012-04-27 Military occupations and interventions have a gendered impact on both those engaged in occupying and those whose lands have been occupied Yet little is known about this gendered impact in terms of both masculinities and femininities either historically or in contemporary times While research in this area has begun to grow since events in Iraq and Afghanistan this collection helps redress the relative neglect by examining and analysing the impact of occupation on men and women both occupied and occupier in a variety of geographical spaces from Japan to Palestine to Iraq Gendered perspectives are also intimately tied to analyses of power how power is enacted by the occupier how powerlessness is experienced by the occupied how power is negotiated shared compromised subverted reclaimed power as visible and invisible institutional power contested power in post conflict societies and power as discursively constructed The term military occupation is interpreted broadly to include occupation interventions the presence

of military bases and peacekeeping post conflict operations This interpretation allows space to demonstrate that the lines between each definition are blurred especially when it comes to analysing gender and power

**Rastafari Reasoning and the RastaWoman** Jeanne Christensen,2014-02-14 Rastafari Reasoning and the RastaWoman Gender Constructions in the Shaping of Rastafari Livity examines the complex ways that gender and race shaped a liberation movement propelled by the Caribbean evolution of an African spiritual ethos Jeanne Christensen proposes that Rastafari represents the most recent reworking of this spiritual ethos referred to as African religiosity The book contributes a new perspective to the literature on Rastafari and through a historical lens corrects the predominant static view of Rastafari women In certain Rastafari manifestations a growing livity developed by RastaMen eventually excluded women from an important ritual called Reasoning a conscious search for existential and ontological truth through self understanding performed in a group setting Restoring agency to the RastaWoman Christensen argues that RastaWomen intimately in touch with this spiritual ethos challenged oppressive structures within the movement itself They skirted official restrictions speaking out in public and written forums whenever such avenues presented themselves and searched for their own truth through conscious intentional self examination characteristic of the Reasoning ritual With its powerful theoretically informed narrative Rastafari Reasoning and the RastaWoman Gender Constructions in the Shaping of Rastafari Livity will appeal to students and scholars interested in religious transformation resistance movements gender issues critical race studies and the history and culture of the English speaking Caribbean

*From Sites of Occupation to Symbols of Multiculturalism* Iveta Silova,2006-03-01 Rarely do we find books in educational research that are both thick in context and rich in theory Usually books emphasize one over the other Authors that engage in thick descriptions tend to fall short of explaining what larger theoretical issue their case stands for Vice versa authors who make a case for a particular theory do not always describe their case in sufficient detail From Sites to Occupation to Symbols of Multiculturalism is a remarkable exception The book is a major break through in case study methodology multiculturalism and policy borrowing lending research The book investigates a puzzle how is it that one and the same system the system of separate schooling for Latvian and Russian speakers is seen as a site of occupation during one period 1987 1990 and as a symbol of multiculturalism in the next 1991 1999 The system has stayed in place but the meaning attached to it has been completely inverted Is cultural change without structural change possible Does it mean that the dual school system has become anachronistic and will eventually disappear in light of the cultural changes of the past decade The book is the story of a great metamorphosis of one and the same system of separate schooling that at first unbelievable gradually makes sense
