## From Picture To Picture:

**Picture Perception in Animals** Joel Fagot, 2013-06-17 Animal researchers commonly present pictures to their subjects usually birds or monkeys in order to infer how natural objects are perceived and conceptualised or to discover the brain mechanisms underlying these abilities This unique book questions the premise of this experimental approach and asks whether or not pictures can be considered as ecologically valid and realistic stimuli for animals Leading researchers in comparative psychology and neuroscience address such questions as Can animals recognise objects of scenes in pictures despite variations in viewpoints How do animals perceive faces and Is there an equivalence in animals minds between pictures and the objects they represent The result is an authoritative and cutting edge survey of current knowledge in the field which underlines the advantages limits and risks of using pictures to infer cognitive abilities or brain mechanisms in animal studies *Picture Perception in Animals* will be essential reading for comparative psychologists anthropologists and neuroscientists working in picture perception
