From Politics To Policy:

Politics, Policy, and Organizations George A. Krause, Kenneth J. Meier, 2009-12-14 This groundbreaking work provides a new and more accurate guide to the interactions of bureaucracies with other political institutions and the public at large

Jacket *Comparative Studies of Policy Agendas* Frank R. Baumgartner, Christoffer Green-Pedersen, Bryan D.

Jones, 2013-09-13 Previously published as a special issue of the Journal of European Public Policy this book draws on the insights of the existing literature on agenda setting and policy changes to explore the dynamics of attention allocation and its consequences Attention is a crucial variable in understanding modern politics Shifts in attention have dramatic consequences for both politics and policy decisions This volume includes case studies of nine different political systems including the US Canada several European systems and the EU itself It asks the following questions Which are the dynamics of agenda setting in the EU Which role do political parties play in attention allocation What are the cross national differences in attention to health care What role does science and expertise play in attention allocation What are the effects of political institutions Comparative Studies of Policy Agendas will be of interest to students and scholars of policy analysis and public policy

The Political Economy of Corporation Tax John Snape, 2011-12-09 Excellent technical writing on corporation tax abounds but it tends to be inaccessible to public lawyers political theorists and political economists Although recent years have seen not only an explosion in public law scholarship but also a reawakening of interest in interpretative political theory and political economy the potential of these perspectives to illuminate the corporation tax debate has remained unexplored In this important work John Snape seeks to reconcile these disparate strands of scholarship and to contribute to a new way of understanding and conceptualising the reform of the law relating to corporate taxation Drawing on important developments in public law scholarship the study combines elements of political theory and political economy It advances a new interpretation of corporation tax law as an instrument of rule through the maximisation of a nation's economic potential Snape shows how corporate taxation belongs at the centre of any discussion of economic globalisation not only because of the potential of national tax systems to influence inward investment decisions but also because of the potential of those decisions to shape the public interest that those tax systems might embody Following public law and politics models the book looks afresh at the impact of Britain's political institutions of the processes of its representative government and of the theory that moulds and orders the values that the corporation tax code contains This is a timely exploration of cutting edge issues of public policy

Politics in the Republic of Ireland John Coakley, Michael Gallagher, Eoin O'Malley, Theresa Reidy, 2023-08-31 Building on the success of previous editions Politics in the Republic of Ireland continues to provide an authoritative introduction to all aspects of government and politics in this seventh edition Written by some of the foremost experts on Irish politics it explains analyses and interprets the background to Irish government and contemporary political processes It devotes chapters to every aspect of contemporary Irish government and politics including the political parties

and elections the constitution deliberative democracy referendums the Taoiseach and the governmental system women and politics the position of the Dail and Ireland's place within the European Union Bringing readers up to date with the very latest developments especially with the upheaval in the Irish party system and the implications of recent liberalising referendums the seventh edition combines substance with a highly readable style providing an accessible book that meets the needs of all those who are interested in knowing how politics and government operate in Ireland

Leadership and Politics Bryan D. Jones, 1989 In twelve essays influential scholars in political science explore the meaning of political leadership from the kaleidoscopic perspectives of the leaders institutions goals procedures problems and traditions involved The approaches as varied as the subject itself coalesce around the central question of how leaders interact with transform or are controlled by the organizations they lead

Politics and the Primary Teacher Peter Cunningham, 2011-12-15 Why is primary education so high on the political agenda and so contentious Why is the performance of primary schools so often in the media spotlight Why should primary teachers trouble themselves with the politics of their work *Politics and the Primary Teacher* is an accessible introduction to some of the thorniest aspects of a primary teacher's role It aims to support your understanding of the constant changes in education policy give you confidence to engage critically with current political debates and consider how you might shape your response accordingly Including questions for reflection and selected further reading and resources it examines the complex interface between the work of a teacher and the world beyond the classroom walls Key issues explored include assessment testing league tables and national accountability measures the media's impact in shaping both local and national views about education political implications of new policies such as academies and free schools conditions of work in the classroom and workforce remodelling the curriculum its purposes and structure pedagogy and teaching methods education for citizenship health and well being *Politics and the Primary Teacher* is essential reading for all education professionals who want to think more deeply about primary education what it offers and how children families and communities are served by the primary school

Fusarelli,2003-05-15 Lance D Fusarelli examines the relationship between the charter school and voucher issues To what degree does political support for charter schools from a coalition of teacher associations school board groups superintendents and voucher advocates slow or even stop the forces for vouchers Or do these coalitions which successfully pushed charter school legislation through the legislature actually fuel the fires of privatization Charter schools legislation has enjoyed bipartisan support precisely because the threat of vouchers is so great And contrary to the strategy of voucher opponents the spread of charter school increases rather than alleviates the push for vouchers The Governance Cycle in Parliamentary Democracies Scott de Marchi,Michael Laver,2023-02-09 Parliamentary democracy involves a never ending cycle of elections government formations and the need for governments to survive in potentially hostile environments These conditions require members of any government to make decisions on a large number of issues some of which sharply divide them Officials resolve these divisions by logrolling conceding on issues they care less about in exchange for reciprocal concessions on

issues to which they attach more importance Though realistically modeling this governance cycle is beyond the scope of traditional formal analysis this book attacks the problem computationally in two ways Firstly it models the behavior of functionally rational senior politicians who use informal decision heuristics to navigate their complex high stakes setting Secondly by applying computational methods to traditional game theory it uses artificial intelligence to model how hyper rational politicians might find strategies that are close to optimal
