A Companion to the Achaemenid Persian Empire, 2 Volume Set Bruno Jacobs, Robert Rollinger, 2021-08-31 A COMPANION TO THE ACHAEMENID PERSIAN EMPIRE A comprehensive review of the political cultural social economic and religious history of the Achaemenid Empire Often called the first world empire the Achaemenid Empire is rooted in older Near Eastern traditions A Companion to the Achaemenid Persian Empire offers a perspective in which the history of the empire is embedded in the preceding and subsequent epochs In this way the traditions that shaped the Achaemenid Empire become as visible as the powerful impact it had on further historical development But the work does not only break new ground in this respect but also in the fact that in addition to written testimonies of all kinds it also considers material tradition as an equal factor in historical reconstruction This comprehensive two volume set features contributions by internationally recognized experts that offer balanced coverage of the whole of the empire from Anatolia and Egypt across western Asia to northern India and Central Asia Comprehensive in scope the

Bibliographical Guide to Iran Laurence Paul Elwell-Sutton, 1983 **Hafiz and His Contemporaries** Dominic Parviz Brookshaw, 2019-02-28 Despite his towering presence in premodern Persian letters Shams al Din Muhammad Hafiz of Shiraz d 1390 remains an elusive and opaque character for many In order to look behind the hyperbole that surrounds Hafiz s poetry and penetrate the quasi hagiographical film that obscures the poet himself this book attempts a contextualisation of Hafiz that is at once socio political historical and literary Here Hafiz s ghazals short monorhyme broadly amorous lyric poems are read comparatively against similar texts composed by his less studied rivals in the hyper competitive imitative and profoundly intertextual environment of fourteenth century Shiraz By bringing Hafiz s lyric poetry into productive detailed dialogue with that of the counterhegemonic satirist Ubayd Zakani d 1371 and the marginalised Jahan Malik Khatun d after 1391 the most prolific female poet of premodern Iran our received understanding of this most iconic of stages in the development of the Persian ghazal is disrupted and new avenues for literary exploration open up Looking beyond the particular milieu of Shiraz this study re assesses Hafiz s place in the Persian poetic canon through reading his poems alongside those produced by professional poets in other major centres of Persian literary activity who enjoyed comparable fame in the fourteenth century Recognising the aesthetic achievements of his contemporaries does not diminish the splendour of Hafiz s rather it forces us to accept that Hafiz was but one member of a band of poets who jostled for the limelight in competing often intersecting patronage and reception networks that facilitated intense cultural exchange between the cities of post Mongol Iran and Iraq Hafiz s ghazals characterised as they are by conscious and deliberate hybridity ambiguity and polysemy are products of a creative mind bent on experimenting with genre While in no way seeking to deny the mystical stratum of the Persian ghazal in its fourteenth century manifestation this study emphasises the courtly

and profane dimensions of the form and regards Hafiz through a sober lens with keen attention to his dynamic role at the heart of a vibrant poetic community that was at once both fiercely local and boldly cosmopolitan 1997, □□□□□□□□

Discovering Cyrus: The Persian Conqueror Astride the Ancient World Reza Zaghamee, 2015-09-25 Discovering Cyrus The Persian Conqueror Astride the Ancient World Some of the most fascinating human epochs lie in the borderlands between history and mystery So it is with the life of Cyrus the Great founder of the Persian Empire in the sixth century B C By conquest or gentler means he brought under his rule a dominion stretching from the Aegean Sea to the Hindu Kush and encompassing some tens of millions of people All across this immense imperium he earned support and stability by respecting local customs and religions avoiding the brutal ways of tyranny and efficiently administering the realm through provincial governors The empire would last another two centuries leaving an indelible Persian imprint on much of the ancient world The Greek chronicler Xenophon looking back from a distance of several generations wrote Cyrus did indeed eclipse all other monarchs before or since The biblical prophet Second Isaiah anticipated Cyrus repatriation of the Jews living in exile in Babylon by having the Lord say He is my shepherd and will accomplish all that I please Despite what he achieved and bequeathed much about Cyrus remains uncertain Persians of his era had no great respect for the written word and kept no annals The most complete accounts of his life were composed by Greeks More fragmentary or tangential evidence takes many forms among them archaeological remains administrative records in subject lands and the always tricky stuff of legend Given these challenges Discovering Cyrus The Persian Conqueror Astride the Ancient World is a remarkable feat of portraiture In his vast sweep Reza S Zarghamee draws on sources of every kind painstakingly assembling detail and always weighing evidence carefully where contradictions arise He describes the background of the Persian people the turbulence of the times and the roots of Cyrus policies His account of the imperial era itself delves into religion military methods commerce court life and much else besides The result is a living breathing Cyrus standing atop a distant world that played a key role in shaping our own
