## **From Reform To Revolution The Demise Of Communism In China And The Soviet Union:**

From Reform to Revolution Minxin Pei,1994 The author concludes with provocative statements about regime transition from communism He rejects the idealistic notion that democratization can by itself remove the structural obstacles to economic transformation and he sees high economic and political costs as unavoidable in transition from communism along either the Soviet or the Chinese path **State-Society Relations and Confucian Revivalism in Contemporary China**

Qin Pang,2018-05-25 This book is a study of the causes of the Confucian revival and the party state s response in China today It concentrates on the interactions between state and society and the implications for the Chinese state s control over society or in other words its survival over a rapidly modernizing society The book explores the answers to questions such as Why has Confucianism suddenly gathered great momentum in contemporary Chinese society What is the role of the Chinese state in its rise Is the state really the orchestrator of the Confucian revival as has been widely assumed This book will be of interest to think tank and policy researchers sinologists and those with an interest in Chinese society **Ibss: Political Science:**

**1994** British Library of Political and Economic Science at the London School of Economics,1995-12-08 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences **Getting China Wrong** Aaron L.

Friedberg,2022-03-14 The West s strategy of engagement with China has failed More than three decades of trade and investment with the advanced democracies have left that country far richer and stronger than it would otherwise have been But growth and development have not caused China s rulers to relax their grip on political power abandon their mercantilist economic policies or accept the rules and norms of the existing international system To the contrary China today is more repressive at home more aggressive abroad and more obviously intent on establishing itself as the world s preponderant power than at any time since the death of Chairman Mao What went wrong Put simply the democracies underestimated the resilience resourcefulness and ruthlessness of the Chinese Communist Party For far too long the United States and its allies failed to take seriously the Party s unwavering determination to crush opposition build national power and fulfill its ideological and geopolitical ambitions In this timely and powerfully argued study Aaron Friedberg identifies the assumptions underpinning engagement describes the counterstrategy that China s Communist Party rulers devised in order to exploit the West s openness while defeating its plans and explains what the democracies must do now if they wish to preserve their prosperity protect their security and defend their common values Also available as an audiobook Confucianism for the

Modern World Daniel A. Bell,Chae-bong Ham,2003-09-08 While Confucian ideals continue to inspire thinkers and political actors discussions of concrete Confucian practices and institutions appropriate for the modern era have been conspicuously absent from the literature thus far This volume represents the most cutting edge effort to spell out in meticulous detail the relevance of Confucianism for the contemporary world The contributors to this book internationally renowned philosophers

lawyers historians and social scientists argue for feasible and desirable Confucian policies and institutions as they attempt to draw out the political economic and legal implications of Confucianism for the modern world *Political Science Abstracts*, 2012-12-06 *Political Science Abstracts* is an annual supplement to the Political Science Government and Public Policy Series of The Universal Reference System which was first published in 1967 All back issues are still available **The Democratisation of China** Baogang He, 2002-11-01 The events of 1989 culminating in Tiananmen Square highlighted the extent to which democratic ideals had taken root in China Baogang He traces and evaluates the political discourse of democracy in contemporary China identifying the three main competing models of democratization that dominate current Chinese intellectual trends Analyzing the political implications of these models the author considers how the theories may be put into practice in order to develop an appropriately Chinese conception of democracy **Zhao Ziyang and China's Political Future** Guoguang Wu, Helen Lansdowne, 2013-05-13 What legacies have previous reformers like Zhao Ziyang left to today's China Does China have feasible political alternatives to today's repressive market Leninism and corrupt state capitalism Does Zhao's legacy indicate an alternative to the past and for the future For those who are familiar with the development of Chinese politics since the reform years Zhao is now widely regarded as a major architect of the nation's profound transition His contributions to China's post Mao development are rich and multi faceted including those on rural and urban economic reforms extending to accountable governance liberal policies concerning domestic affairs and China's foreign relations Featuring contributions from leading experts in the field such as Richard Baum and Xiaonong Cheng this book explores the historical development of China's political reform issues and how his political legacies are relevant to China's political development since the 1980s to the future Using recently translated recollection articles by veteran reformers who worked with Zhao in the 1980s like Du Runsheng An Zhiwen Li Rui Bao Tong Zhao Ziyang and China's Political Future is a valuable contribution for students and researchers interested in the Chinese politics Asian politics and political development in Asia **Why Communism Did Not Collapse** Martin K. Dimitrov, 2013-07-31 This volume brings together a distinguished group of scholars working to address the puzzling durability of communist autocracies in Eastern Europe and Asia which are the longest lasting type of non democratic regime to emerge after World War I The volume conceptualizes the communist universe as consisting of the ten regimes in Eastern Europe and Mongolia that eventually collapsed in 1989-91 and the five regimes that survived the fall of the Berlin Wall China Vietnam Laos North Korea and Cuba The essays offer a theoretical argument that emphasizes the importance of institutional adaptations as a foundation of communist resilience In particular the contributors focus on four adaptations of the economy of ideology of the mechanisms for inclusion of potential rivals and of the institutions of vertical and horizontal accountability The volume argues that when regimes are no longer able to implement adaptive change contingent leadership choices and contagion dynamics make collapse more likely **Russia, China and the Revisionist Assault on the Western Liberal International Order**

Gerlinde Groitl, 2023-05-22 This book analyzes Russian and Chinese revisionism in the face of US and Western post Cold War liberal international order building and asks why both powers have turned revisionist in the late 2000s The study develops a neoclassical realist model of international order building and contestation and posits to view revisionism as a strategic choice States go revisionist if the status quo international order threatens their vital security needs broadly defined not only as territorial security but also political economic normative and ontological and if they have the means to challenge the undesirable status quo Russia and China were both unhappy with the post Cold War international order of American designs but had to opt for accommodation in the 1990s and early 2000s strategic accommodation in the Chinese case resentful accommodation in the Russian case before revisionism became even more of a necessity and a real policy option from the late 2000s onward constructive revisionism in the Chinese case destructive revisionism in the Russian case The author calls for a policy of neo containment to counter Moscow's and Beijing's efforts to game and erode the international order New Asian Disorder Lowell Dittmer, 2021-12-14 In New Asian Disorder Rivalries Embroiling the Pacific Century Lowell Dittmer and his team explore the recent political disorder in East Asia resulting from growing Sino American polarization The rise of China in recent years is widely regarded as a momentous shift in the global balance of power China is now extending sovereignty into the East China Sea and the South China Sea constructing a new set of global financial institutions and replacing universal values with technologically enhanced nationalism The country's Belt and Road Initiative is also tainted by the vast ambition to realize the China Dream within the foreseeable future In response to China's challenge the United States has abandoned its constructive engagement policy towards the rising power and engaged in a trade war Sino American relations have been at a historical trough since the normalization of their relationship in the late 1970s This book sheds new light on the current political disorder in the East Asian international arena The new Asian disorder is analyzed from three perspectives the first focuses on identity the second on political economy and the third on the triangular dynamic This collection of essays concludes that unless and until consensus can be reached on a coherent new framework for cooperation and rule enforcement among different stakeholders in East Asia the current disorder may be expected to persist Focusing on the impact of Xi Jinping and Donald Trump this book sees rivalries undermining the post Cold War order but not leading to a full breakdown Stress is on identities strategies and triangles related to the Sino US rivalry Dittmer argues that these factors will drive further changes Readers will find a diversity of approaches on a most critical bilateral relationship Gilbert Rozman Princeton University editor of *The Asian Forum* A great read to better comprehend the New Asian Disorder that the growing China US rivalry has been contributing to as well as its implications for the other actors of the region be they big as Japan or smaller as Australia Southeast Asian nations or Taiwan Jean Pierre Cabestan Hong Kong Baptist University senior research fellow of the French Research Institute on East Asia Inalco Paris **Elite Politics in Contemporary China** Joseph Fewsmith, 2015-04-15 A discussion of elite politics in contemporary China While a great deal of the text is descriptive much of

the emphasis is on drawing out and abstracting the political dynamic at work The past half century has seen many hopes raised and some dashed a succession of fears and false alarms and both triumphs and calamities that were almost entirely unexpected This work offers a short but sweeping history of world politics since 1945 America's postwar pre eminence and the hopes that attended the creation of the United Nations the Cold War and the emergence of a volatile Third World economic transformations and the twin threat of nuclear and ecological disaster the crumbling of the Soviet system and the short lived promise of a peaceful prosperous and democratic new world The author describes these momentous changes concisely in an effort to show how we got here from there and what we might have learned along the way **Globalization**

**against Democracy** Guoguang Wu, 2017-04-24 Globalization has reconfigured both the external institutional framework and the intrinsic operating mechanisms of capitalism The global triumph of capitalism implies the embracing of the market by the state in all its variants and that global capitalism is not confined to the shell of nation state democracy Guoguang Wu provides a theoretical framework of global capitalism for specialists in political economy political science economics and international relations for graduate and undergraduate courses on globalization capitalism development and democracy as well as for the public who are interested in globalization Wu examines the new institutional features of global capitalism and how they reframe movements of capital labor and consumption He explores how globalization has created a chain of connection in which capital depends on effective authoritarianism while democracy depends on capital Ultimately he argues that the emerging state market nexus has fundamentally shaken the existing institutional systems harming democracy in the process **China Review International**, 1996 Unparalleled Reforms Christopher Marsh, 2005-01-01 The reforms of the

Soviet and Chinese communist regimes were unparalleled both in the radical precedent setting reforms attempted by the two countries and in the outcomes of these attempts While the Soviet Union collapsed quickly in the midst of its reforms more than a decade later China the world's most populous country still stands as a testament to the resilience of Communist rule It is this phenomenon that Christopher Marsh explores in Unparalleled Reforms Marsh goes beyond simply discussing the differing initial conditions the sequencing of reform and cultural differences to also consider the objectives and intentions of the policy makers and leaders that directed the reform processes and the interdependent nature of politics on the world stage Unparalleled Reforms offers the reader a sophisticated understanding of the nature of political reform and develops a theoretical model that can account for commonly overlooked factors that affect political processes in all types of political systems In a class all its own this is an important work for scholars interested in comparative politics international relations economics Asian studies and Russian studies The Columbia Guide to Modern Chinese History R. Keith

Schoppa, 2000-08-05 China the world's oldest and most populous state remains an enigma to most people in the West even at a time when that country is playing an increasingly prominent role on the international stage At the heart of modern Chinese history have been the efforts of the Chinese people to transform their polity into a modern nation state the Confucian

orthodoxy into an ideology that can help direct that process and an agrarian economy into an industrial one These efforts are ongoing and of great importance This book is both an introduction to the major features of modern Chinese history and a resource for researchers interested in virtually any topic relating to the Chinese experience of the last 220 years This valuable reference contains a historical narrative providing a comprehensive overview of five core aspects of Chinese history domestic politics society the economy the world of culture and thought and relations with the outside world a compendium of 250 short descriptive articles on key figures events and terms a resource guide containing approximately 500 annotated entries for the most authoritative sources for further research in English as well as descriptions of important films depicting modern China and a guide to electronic resources and appendices including a chronology excerpts from key primary source documents and a wealth of tables and graphs on demographic social and economic trends

### **China's Civil Service Reform**

Wang Xiaoqi, 2012-05-04 A market economy and a more liberal society have brought great challenges to China's outdated governance structure and personnel management To improve decision making in government and reshape the management system in face of a more complex economy post Mao authorities have implemented a number of administrative reforms including civil service reform which emphasized on selecting and promoting public officials based on their capability and work performance Thousands of positions have been filled since the civil service system was implemented nationwide in 1993 The Chinese civil service reform is of far reaching significance because it had the potential to be a departure from the established structure of cadre personnel management system developed in the 1950s However after several years of policy development scholars observe that the new reforms have done little to undermine the old cadre system Is this true Or does this conclusion over simplify the complicated implementation of the reforms This book examines the implementation and performance of the on going civil service reforms in China Using the principal agent framework the author draw upon key case studies showing how the reforms affect civil servants incentives and behavior in the local context and the Chinese leadership's control over the bureaucracy China's reform experience speaks directly to many Asian countries facing urgent need to improve state capacity as the global financial crisis unfolds

### **The Paradox of China's Post-Mao Reforms**

Merle Goldman, Roderick MacFarquhar, 1999 China's bold program of reforms launched in the late 1970s the move to a market economy and the opening to the outside world ended the political chaos and economic stagnation of the Cultural Revolution and sparked China's unprecedented economic boom Yet while the reforms made possible a rising standard of living for the majority of China's population they came at the cost of a weakening central government increasing inequalities and fragmenting society The essays of Barry Naughton Joseph Fewsmith Paul H B Godwin Murray Scot Tanner Lianjiang Li and Kevin J O'Brien Tianjian

Shi Martin King Whyte Thomas P Bernstein Dorothy J Solinger David S G Goodman Kristen Parris Merle Goldman Elizabeth J Perry and Richard Baum and Alexei Shevchenko analyze the contradictory impact of China's economic reforms on its political system and social structure They explore the changing patterns of the relationship between state and society that may have more profound significance for China than all the revolutionary movements that have convulsed it through most of the twentieth century

**China's Opening Society** Zheng Yongnian, Joseph Fewsmith, 2008-02-19 This book examines the development of the non state sector and NGOs in China since the onset of reform in the late 1970s It explores the major issues facing China's non state sector today assesses the institutional barriers faced by its developing civil society and compares China's example with wider international experience
