the Land of Snows John Avedon, 2015-01-06 Tibet, the roof of the world, had been aloof and at peace for most of its 2,100 years. But in 1932 the Thirteenth Dalai Lama, in his final testament, warned: "It may happen that here, in the center of Tibet, religion and government will be attacked both from without and from within." By the time his successor was enthroned in 1950, the Chinese occupation had begun. In this gripping account, John F. Avedon draws on his work and travels with the Fourteenth Dalai Lama to bring us the riveting story of Tibet and its temporal and spiritual leader. Included is an extensive interview with the Dalai Lama, who speaks about the conditions in Tibet, the mind of a Buddha, and the events of his life. Rigorously researched and passionately written, the original edition of *In Exile from the Land of Snows* was instrumental in launching the modern Tibet movement when it was published in 1984. Now, some three decades later, Avedon's testimony is more wrenching and relevant than ever. **Tibetan Nation** Warren Smith, 2019-07-31 This detailed history offers the most comprehensive account available of Tibetan nationalism, Sino-Tibetan relations, and the issue of Tibetan self-determination. Warren Smith explores Tibet's ethnic and national origins, the birth of the Tibetan state, the Buddhist state, and its relations with China. Tibet's quest for independence and the Chinese takeover of Tibet after 1950. Focusing especially on post-1950 Tibet under Chinese Communist rule, Smith analyzes Marxist-Leninist and Chinese Communist Party nationalities theory and policy, their application in Tibet, and the consequent rise of Tibetan nationalism. Concluding that the essence of the Tibetan issue is self-determination, Smith bolsters his argument with a comprehensive analysis of modern Tibetan and Chinese political histories.

China's India War Bertil Lintner, 2018-01-25 The Sino-Indian War of 1962 delivered a crushing defeat to India; not only did the country suffer a loss of lives and a heavy blow to its pride, the world began to see India as the provocateur of the war with China, merely defending its territory. This perception that China was largely the innocent victim of Nehru's hostile policies was put forth by journalist Neville Maxwell in his book *India's China War*, which found readers in many opinion makers, including Henry Kissinger and Richard Nixon. For far too long, Maxwell's narrative, which sees India as the aggressor and China as the victim, has held court. Nearly 50 years after Maxwell's book, Bertil Lintner's *China's India War* puts the border dispute into its rightful perspective. Lintner argues that China began planning the war as early as 1959 and proposes

that it was merely a small move in the larger strategic game that China was playing to become a world player one that it continues to play even today

China's Bloody Century R. J. Rummel, 2017-07-12 Except for Soviet citizens no people in this century have endured so much mass killing as have the Chinese They have been murdered by rebels conniving with their own rulers and then after the defeat in war of the imperial dynasty by soldiers of other lands They have been killed by warlords who ruled one part of China or another They have been executed by Nationalists or Communists because they had the wrong beliefs or attitudes or were simply in the wrong place at the wrong time In China's Bloody Century R J Rummel's careful estimate of the total number of killings exceeds 5 million How do we explain such killings crossing ideological bounds and political conditions According to Rummel the one constant factor in all the Chinese mass murder as it was in the Soviet Union and Nazi Germany is arbitrary power It was the factor that united warlords Nationalists Communists and foreign armies The author argues that whenever such undisciplined power is centralized and unchecked the possibility exists that it will be used at the whim of dictators to kill for their own ends whether the aim is ethnic racial purity national unity development or utopia The book presents successive periods in modern Chinese history with each chapter divided into three parts Rummel first relates the history of the period within which the nature and the amount of killings are presented He then provides a detailed statistical table giving the basic estimates with their sources and qualifications The final part offers an appendix that explains and elaborates the statistical computations and estimates While estimates are available in the literature on the number of Chinese killed in Communist land reform or in Tibet or by the Nationalists in one military campaign or another until this book no one has tried to systematically accumulate organize add up and analyze these diverse killings for all of China's governments in this century For
