and public sphere studies Inside Political Campaigns Gary A. Copeland, Karen S. Johnson-Cartee, 1997-04-22 As Dan Nimmo notes in his introduction *Inside Political Campaigns* endeavors to trace the sources of professional campaign wizardry by encapsulating the theories and concepts that practitioners and scholars alike claim to guide and rationalize consultants' magical weaving of strategies, tactics and techniques into a winning tapestry of political communication. This study presents the theoretical areas political communication consultants draw upon in making strategic and tactical decisions in political campaigns. And it provides an understanding of what motivates political consultants to choose a particular campaign strategy by explaining how various strategies work with the voting public. While the book is research driven, its academic findings are tempered and expanded by the authors' personal political consulting experiences. The text will be of interest to scholars, students and practitioners alike in political communication, advertising, public opinion, political science, political rhetoric and campaigns and elections.

Political Rhetoric, Power, and Renaissance Women Carole Levin, Patricia A. Sullivan, 1995-08-17 The authors examine the political rhetoric of a number of powerful women of the Renaissance, male responses to this rhetoric, drama and fiction by both male and female authors, considering women and political context and how historians then and now have evaluated powerful women. A multi-disciplinary collection, the book includes an essay about Christine de Pizan and her fifteenth-century look at powerful women, an examination of seventeenth-century rhetoricians and how they viewed and reshaped the Renaissance in terms of giving power to women, and examples of English and French women in the sixteenth and seventeenth centuries. The afterword contextualizes these examples and raises questions about modern issues. The book provides a greater understanding of gender and power in the Renaissance as well as insights into the contemporary age.

Politics and Politicians in American Film Phillip L. Gianos, 1998-01-26 Films have been a part of U.S. society for a century, a source of great enjoyment for the audience and of great profit to filmmakers. How does a mass entertainment medium deal with some of the great sources of dramatic, real-life political and economic conflict: the Great Depression, the Cold War, in a way that attracts an audience without making it angry? How does an industry which has from its beginnings been the subject of attacks from social, political and religious groups deal with political issues and conflicts? This book is an attempt to examine these questions; it is also an examination of some of the greatest and most interesting American films ever made: westerns, gangster films, comedies, war films, satires and film biographies, to see what American films say about politics and politicians, and what these films in turn say about the audience for which they were produced.
