*From the Words of my Mouth (Psychology Revivals)* Laurence Spurling, 2014-06-17 As a psychotherapist in whose name do I speak How can I come to speak in my own name What does tradition mean in psychotherapy Originally published in 1993 the contributors to this book all practising psychotherapists and teachers explore these questions and investigate how theories and practices are passed on from one generation to the next Their responses range over questions of training and indoctrination the idea of tradition in the thought of Freud Jung and Winnicott and the implications of these questions for the practice of psychotherapy It will be of special interest to psychotherapists and counsellors as well as students and teachers of therapy With its emphasis on how psychotherapy might gain by seeing its connections to other traditions such as literature philosophy and the creative arts the book will also appeal to a wider readership **Her Hour Come Round at Last** Gillian

Preston, Peter L. Rudnytsky, 2018-03-22 This title is a celebration of the life of Nina Coltart who had a career in medicine and psychoanalysis and was author of bestselling titles in psychotherapy *The Baby and the Bathwater* and *How to Survive as a Psychotherapist* The book contains a large number of contributions by specialists in the field including Michael Brearley Susan Budd and Anthony Molino The book offers a long overdue tribute to Nina Coltart 1927 1997 who was a leading figure in the Independent Group of the British Psychoanalytical Society and indeed one of the greatest psychoanalysts of the twentieth century In addition to providing a comprehensive assessment of Coltart's life and work by patients supervisees friends family members and readers the editors have compiled all of her hitherto unpublished or uncollected writings making this book a capstone of her legacy to psychoanalysis Critical Existential-Analytic Psychotherapy Del

Loewenthal, 2021-03-24 This book is an introduction to critical existential analytic psychotherapy It has been written as a response to what is considered to be a crisis point in what is currently taken as psychotherapeutic knowledge A focus point is the relentless move in psychotherapy and psychotherapy trainings towards evidence based practice It is suggested that such developments can be usefully challenged if we are to consider Can starting with theory be a form of violence Should a primacy be given to practice Does reliance on empirical research mean we start from the wrong place From a critical existential analytic psychotherapeutic perspective the answer to all three of these questions is yes This perspective therefore is fundamentally different from what psychological therapists are increasingly purporting to do and further challenges other current notions from diagnosis and treatment to dominant discourses in psychology The aim of this book is to consider some ways in which the psychological therapies might be able to move away from the crisis mainly caused by what is currently wrongly being understood in terms of evidence based practice as the nature of psychotherapeutic knowledge Instead it is proposed that primacy be given to practice considering theories having implications rather than applications and privileging thoughtfulness with notions of research being seen more as cultural practices This book is based on a special issue of the *European Journal of Psychotherapy Counselling* Critical Thinking in Counselling and Psychotherapy Colin

Feltham,2010-07-14 Critical Thinking in Counselling and Psychotherapy examines the critical debates around key topics in counselling and psychotherapy In nine sections including Everyday Counselling Practice Training and Curriculum Issues and Counselling Society and Culture Colin Feltham explores and cross references 60 provocative questions central to counselling training and practice Each section includes questions for reflection case studies and student exercises This comprehensive student friendly text is a useful resource for lecturers to stimulate seminar discussion and for all trainees wishing to write essays or generally develop their critical thinking in counselling and psychotherapy **New Directions in Counselling**

Loewenthal,2022-11-28 For Emmanuel Levinas the danger of Western thought is that if we start with ourselves we end with ourselves Psychotherapy and counselling would be for the sole purpose of strengthening self initiated and self directed fulfilment resulting in individual and societal forms of totalitarianism Levinas suggests that ethics should be about putting the Other first but not in some fundamentalist Christian sense of the self choosing to give one's life for others The origin of authentic ethical behaviour is not from the self but from the Other Levinas offers us a fundamental shift in our thinking about therapeutic practices His writings call on us to have an ethical responsibility in the very way we practice therapy This is with all the complexities of negotiating from nearness and distance involvement and boundaries and how we view ourselves in attempting to do this Levinas inspires us towards ontological epistemological and methodological shifts The attempt to put the Other first can significantly change our notion of being It can help us be taken away from the dangers of a therapy based on ego psychology which seems to permeate so much of our therapies whether classified as humanistic psychoanalytic behavioural or existential All except the Introduction and two of the chapters were originally published in the European Journal of Psychotherapy and Counselling **Relational Psychotherapy, Psychoanalysis and Counselling** Del

Loewenthal,Andrew Samuels,2014-05-09 Is therapy's relational turn only something to celebrate It is a major worldwide trend taking place in all the therapy traditions But up to now appreciation of these developments has not been twinned with well informed and constructive critique Hence practitioners and students have not been able to engage as fully as they might with the complex questions and issues that relational working presents Relational Psychotherapy Psychoanalysis and Counselling Appraisals and reappraisals seeks to redress this balance In this unique book Del Loewenthal and Andrew Samuels bring together the contributions of writers from several countries and many therapy modalities all of whom have engaged with what relational means whether to espouse the idea to urge caution or to engage in sceptical reflection Relational Psychotherapy Psychoanalysis and Counselling Appraisals and reappraisals presents clinical work of the highest standard in a way that is moving and draws the reader in The more intellectual contributions are accessible and respectful

avoiding the polarising tendencies of the profession At a time when there has been a decline in the provision and standing of the depth therapies across the globe this book shows that whatever the criticisms there is still creative energy in the field It is hoped that practitioners and students in psychoanalysis psychotherapy counselling and counselling psychology will welcome this book for its cutting edge content and compassionate tone

**Which Psychotherapy?** Colin Feltham, 1997-04-07 This controversial book argues that 20th century psychotherapy has been fundamentally characterized by serious disagreement on views of human nature treatment rationales and goals Focusing on the differences rather than the commonalities in therapy eight eminent practitioners demonstrate the diversities in therapies and why for the most part it is not possible to tolerate or integrate with other approaches The book awakened me to understanding more about how a core belief or orientation can result in polarised attitudes towards the person At the same time in some cases there is fundamental common ground which could potentially lead to genuine integration

ac Eisteach The Journal of the Irish Association for Counselling and Therapy Eight distinguished practitioners address twelve different questions aimed at identifying the distinctive qualities of their own

approach and demonstrating how it has been arrived at The result is a book that will allow both experienced practitioners and trainees to become familiar with and compare the current thinking of these well known people the very passion of these opposing and sometimes exclusive convictions may be the well spring for the efficacy and achievements of these eminent practitioners and trainers Self what criticisms of the approach they consider to be valid which approaches they consider to be ineffective misleading or dangerous and conversely more promising or effective why their approach is more effective or comprehensive and why it may be more suited to certain clients or client problems and how they account for research which suggests that no one approach seems more effective than any other     The Legacy of R. D. Laing M. Guy
