Radical Left Voters in Western Europe Raul Gomez, Luis Ramiro, 2022-10-07 *Radical Left Voters in Western Europe* explores who votes for Radical Left Parties in contemporary Western Europe and why Once considered a relic of the past which was doomed to disappear in affluent societies Radical Left Parties were able to survive unprecedented electoral crises in the 1980s and 1990s to become a stable and significant feature of contemporary West European politics Despite this our knowledge of the electorate of contemporary Radical Left parties is extremely limited To fill this gap this book analyzes the radical left electorate in 17 West European countries Belgium Cyprus Denmark Finland France Greece Germany Iceland Ireland Italy Luxembourg the Netherlands Norway Portugal Spain Sweden and Switzerland for a period of 18 years 2000-18 The research combines data from multiple sources surveys country level data and party level data to show how amidst social and political change Radical Left Parties have been able to maintain a relatively sizeable and clearly identifiable electorate with fairly similar socio demographic and attitudinal features Moreover the book argues that in order to explain electoral support for Radical Left Parties it is important to consider not only voter characteristics but also the characteristics of the parties themselves and of the political and economic context in which they compete for votes This book will be of interest to scholars of comparative politics political sociology electoral behaviour and political parties

The Italian Far Right from 1945 to the Russia-Ukraine Conflict Nicola Guerra, 2023-12-19 *The Italian Far Right from 1945 to the Russia-Ukraine Conflict* provides a comprehensive account of the postwar parliamentary and extra parliamentary far right in Italy This book explores the ideology movements and activism of the extreme right and neo fascists The recent victory in the Italian parliamentary elections of the post fascist party Fratelli d'Italia and its leader Giorgia Meloni highlights the importance of such research The book examines why some of these movements participated with CIA backing in the Strategy

of Tension in the years of the Cold War where terrorist actions aimed to keep Italy in NATO and prevent the Communist Party from coming to power while other extreme right groups vehemently opposed this and what they considered the dangerous Americanization of the country It debunks the myth that there was a unified postwar fascist movement in Italy but instead excavates the complex battles within the extreme right as well as with their opponents from the left and the authorities This study is necessary to clarify the history and ideological dynamics of a political area still too often shrouded in mystery and whose geopolitical role is still poorly understood and generally underestimated The analysis is contextualized in the present day by looking at the different perspectives of the Italian far right on the Russian invasion of Ukraine The book will be of interest to researchers of political history the Cold War and Italian history and politics

Eco-Socialism or "Green" Capitalism? Saral Sarkar,2023-09-08 After the ignominious fall of the classical Soviet model of socialism in the early 1990s socialists communists and all other kinds of Leftists had felt to have been left in the lurch With his book *Eco Socialism or Eco Capitalism A Critical Analysis of Humanity s Fundamental Choices* 1999 Saral Sarkar presented and laid the theoretical foundation of a new conception of socialism which convinced because it organically synthesized the newly arisen imperative of ecological sustainability and the old ideal of equality among members of humanity On their part all opponents of any kind of socialism have also been trying to somehow accommodate the inexorable insights and demands of true ecological sustainability in extant conceptions of capitalism What they have achieved is not a synthesis but merely a fake and self contradictory phrase that does not deserve the prefix Eco and should properly be called Green Capitalism But they succeeded in hoodwinking millions of worried human beings all over the world In the last thirty years Sarkar has been relentlessly trying through speeches and writings to counter their misconceptions of the ecological and social imperatives In the present two volumes of his *Collected Writings* readers will find some of the fruits of his endeavor Table of Contents Vol 2 Ch 5 On Population Growth and Unwelcome Mass Immigration Ch 6 On Fascism Secessionism Identity Politics and Other Reactionary Trends Ch 7 Futility of Activism Without Analysis Ch 8 Concluding Essays Table of Contents Vol 1 Ch 1 Polit autobiographical Essays Ch 2 Essays on the Renewable Energies Question Ch 3 The Recent Economic Crises Ch 4 More on Socialism Eco Socialism Leftism

Congressional Record United States. Congress,1963 *Dictionary Of Modern American Philosophers* John R. Shook,2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including

hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought Anti-System Parties Mattia Zulianello,2019-04-09 This book adopts an innovative conceptualization and analytical framework to the study of anti system parties and represents the first monograph ever published on the topic It features empirical research using original data and combining large N QCA analyses with a wide range of in depth case studies from 18 Western European countries The book adopts a party centric approach to the study of anti system formations by focusing on the major turning points faced by such actors after their initial success long term electoral sustainability the different modalities of integration at the systemic level and the electoral impact of transition to government The author examines in particular the interplay between crucial elements of the internal supply side of anti system parties such as their organizational and ideological features and the political opportunity structure Anti System Parties is a major contribution to the literature on populism anti establishment parties and comparative political parties Why Policy Representation Matters Luigi Curini,Willy Jou,Vincenzo Memoli,2015-06-12 Elections are a fundamental element of democracy since elected governments reflect voter preferences At the same time it is inevitable that policies pursued by any government closely resemble the preferences of some citizens while alienating others who hold different views Previous works have examined how institutional settings facilitate or hinder policy proximity between citizens and governments Building on their findings the book explores a series of so what questions how and to what extent does the distance between individual and government positions affect citizens propensity to vote protest believe in democracy and even feel satisfied with their lives Using cross national public opinion data this book is an original scholarly research which develops theoretically grounded hypotheses to test the effect of citizen government proximity on three dependent variables After introducing the data both public opinion surveys and country level statistics and the methodology to be used in subsequent chapters one chapter each is devoted to how proximity or the absence thereof affects political participation satisfaction with democracy and happiness Differences in political attitudes and behavior between electoral winners and losers and ideological moderates and radicals are also discussed in depth Sociology of Crisis Myrto Tsilimpounidi,2016-11-03 The global financial crisis has demonstrated the impact and implications of late capitalism and its bedfellow globalisation In the European context crisis is seen as a threat to the stability of the region rather than a local or national concern Post 2008 crisis is social and political rather than merely financial as Western countries witness the consequences of consumption growth and profit In this book Tsilimpounidi demonstrates how sociologists must develop new approaches to examining rapid shifts in the social landscape since crisis is not merely reflected in balance sheets but is mediated through spectacular imagery of loss deprivation and increased vectors of marginalisation Providing focused and valuable insight into the pressing problems of those living in Greece in relation to the wider spheres of the nation and at the

level of the European Union Sociology of Crisis takes an approach that is firmly located within a critical sociological appeal to reflexivity A timely engagement with the problem of crisis at a macro level and in dialogue with the everyday experiences of crisis on a micro level this interdisciplinary title will appeal to both undergraduate and postgraduate students interested in sociology social policy geography urban studies and research methods social science Booklegger Magazine,1973 The Death of Social Democracy Ashley Lavelle,2016-03-09 Whereas many writers and scholars interested in the field of social democracy have focused on factors such as the role of economic globalization and electoral pressures Ashley Lavelle explores the importance of the collapse of the post war economic boom and lower growth rates since then He examines how these pressures have led social democrats to embrace neo liberal policies and become threatened by minor parties and independent politicians Providing an original argument about the decline of social democracy the author investigates how its decline has increased the popularity of minor parties and independents along with the reasons for social democratic membership and electoral decline This is an important book for scholars of social democracy and the broader themes of world politics political parties social movements and globalization Terror from the Extreme Right Tore Bjorgo,2014-03-05 This first volume in a new series comprises nine contributions originally presented at a workshop supported by the Norwegian Ministry of Foreign Affairs in Berlin in August 1994 Topics range from right wing violence in North America to the development patterns and causes of violence against fore Journalism Jo A. Cates,2004-05-30 Journalism A Guide to the Reference Literature is a critically annotated bibliographic guide to print and electronic sources in print and broadcast journalism The first edition was published in 1990 the second in 1997 It has been described as one of the critical reference sources in journalism today and it is a key bibliographic guide to the literature Choice magazine called it a benchmark publication for which there are no comparable sources The format is similar to the second edition What makes this edition significantly different is the separation of Commercial Databases and Internet Resources Commercial Databases includes standard fee based resources The new chapter on Internet sources features Web based resources not included in the commercial databases chapter as well as portals other online files listservs newsgroups and Web logs blogs All chapters have been revised and there are significant revisions in Directories Yearbooks and Collections Miscellaneous Sources Core Periodicals Societies and Associations and Research Centers and Archives The second edition has 789 entries The third edition contains almost 1 000 entries James Carey of Columbia University who provided the foreword for the first two editions has updated his foreword for this edition Encyclopedia of Politics Rodney P. Carlisle,2005-03-17 Although the distinction between the politics of the left and the right is commonly assumed in the media and in treatments of political science and history the terms are used so loosely that the student and the general reader are often confused What exactly are the terms left and right supposed to imply This two volume Encyclopedia of Politics The Left and the Right contains over 450 articles on individuals movements political parties and ideological principles with those usually thought of as left in the left
