From Revolutionary Cadres To Party Technocrats In Socialist China:

From Revolutionary Cadres to Party Technocrats in Socialist China Hong Yung Lee, 1991 The Chinese Communist Party and China's Capitalist Revolution Lance Gore, 2010-11-08 Based on extensive empirical investigations of the impact of the market on the communist party with a particular focus on its grassroots organisations this book finds that the Chinese communist party is undergoing profound changes in a host of important areas By analyzing the impact of China's socioeconomic transformation on the CCP and the adaptations of the Party to the new environment the book takes stock of the nature and dynamics of political change underway in China The author concludes that the Chinese communist party we knew no longer exists it is evolving into something quite different which must have political implications for both China and the rest of the world

China in Revolution Joseph W. Esherick, 2022-08-04 This book includes eleven seminal essays by one of America's leading authorities on modern Chinese history with an illuminating preface by Prof Elizabeth Perry of Harvard University it covers a range of topics from the impact of imperialism to the 1989 protests that led to the Tiananmen massacre Chapters include an explanation of how China expanded its borders far beyond the Han Chinese heartland and maintained those borders in the transition from empire to nation how Sun Yat sen unexpectedly emerged as the Father of the Country and how a series of unexpected and contingent events brought the empire down in 1911 Despite conventional representations of a static and unified China this book proves Chinese society to be diverse and constantly changing especially after the Communist revolution which was a transformative event in modern Chinese history Esherick denounces traditional imagery of cultural uniformity which derives from excessive attention to the unitary state through chapters that explore the impact of the 1937-45 War of Resistance against Japan the dramatic wartime transformation of Chinese society in both Communist and Nationalist Guomindang areas and the nature of the new Communist regime in Northwest China In his book Esherick examines both the Marxist Leninist theory behind Mao's notion of the restoration of capitalism against which he waged the Cultural Revolution of the 1960s and the political theater of the 1989 protest movement Throughout the book the contingency of history the need for careful empirical research and the important yet limited role of history is highlighted as the key to understanding the present or predicting the future of China

China's Party Congress Guoguang Wu, 2015-09-18 Nominally the highest decision making body in the Chinese Communist Party the Party Congress is responsible for determining party policy and the selection of China's leaders Guoguang Wu provides the first analysis of how the Party Congress operates to elect Party leadership and decide Party policy and explores why such a formal performance of congress meetings delegate discussions and non democratic elections is significant for authoritarian politics more broadly Taking institutional inconsistency as the central research question this study presents a new theory of mutual contextualization to reveal how informal politics and formal institutions interact with each other Wu argues that despite the prevalence of informal politics behind the scenes authoritarian politics seeks legitimization through a combination of political

manipulation and the ritual mobilization of formal institutions This ambitious book is essential reading for all those interested in understanding contemporary China and an innovative theoretical contribution to the study of comparative politics

Critical Readings on the Communist Party of China (4 Vols. Set) Kjeld Erik Brodsgaard, 2016-12-12 The Chinese Communist Party CCP with nearly 90 million members is the largest ruling political party in the world Its power and influence reach into every corner of state society and economy in China Given the CCP's omnipresence in depth knowledge of how the CCP is organised and managed and how it will likely evolve is of paramount importance and is a basic prerequisite for understanding China's rise By bringing together the best scholarship on the CCP covering areas such as organisation cadre management recruitment and training ideology and propaganda factions and elites reform and adaptation corruption and law this collection provides a key to open the black box of Chinese politics

Mao's Invisible Hand Sebastian Heilmann, Elizabeth J. Perry, 2020-10-26 Observers have been predicting the demise of China's political system since Mao Zedong's death over thirty years ago The Chinese Communist state however seems to have become increasingly adept at responding to challenges ranging from leadership succession and popular unrest to administrative reorganization legal institutionalization and global economic integration What political techniques and procedures have Chinese policymakers employed to manage the unsettling impact of the fastest sustained economic expansion in world history As the authors of these essays demonstrate China's political system allows for more diverse and flexible input than would be predicted from its formal structures Many contemporary methods of governance have their roots in techniques of policy generation and implementation dating to the revolution and early PRC techniques that emphasize continual experimentation China's long revolution had given rise to this guerrilla style decisionmaking as a way of dealing creatively with pervasive uncertainty Thus even in a post revolutionary PRC the invisible hand of Chairman Mao tamed tweaked and transformed plays an important role in China's adaptive governance

China's Communist Revolutions Werner Draguhn, David S.G. Goodman, 2012-10-12 During its fifty years of existence the People's Republic of China has seen dramatic changes from the proclamation of the independent state through the period of the Communist Revolution the Cultural Revolution the Reform Period These changes are analysed from the political economic and social points of view challenging accepted orthodoxy Throughout the emphasis is on change in the context of contemporary China and as part of the Chinese Communist Party's search for paths to development

Chinese Politics Peter Gries, Daniel Lynch, Stanley Rosen, 2010-01-28 Written by a team of leading China scholars this text interrogates the dynamics of state power and legitimation in 21st Century China Despite the continuing economic successes and rising international prestige of China there has been increasing social protests over corruption land seizures environmental concerns and homeowner movements Such political contestation presents an opportunity to explore the changes occurring in China today what are the goals of political contestation how are Chinese Communist Party leaders legitimizing their rule who are the specific actors involved in contesting state legitimacy today and

what are the implications of changing state society relations for the future viability of the People's Republic? Key subjects covered include the legitimacy of the Communist Party, internet censorship, ethnic resistance, rural and urban contention, nationalism, youth culture, labour relations. Chinese Politics is an essential read for all students and scholars of contemporary China as well as those interested in the dynamics of political and social change.

Historical Dictionary of the Chinese Communist Party Lawrence R. Sullivan, 2011-11-04 The Chinese Communist Party as the political leader of the world's largest country and second largest economy plays an undeniably important role in global politics. Founded in a boarding school in Shanghai in 1921, the Chinese Communist Party is one of the oldest ruling parties in the world since its takeover of mainland China in 1949 under the leadership of Chairman Mao Zedong. Since its inception, the party has survived a civil war with the Kuomintang (1946-1949), the political, cultural, and humanitarian catastrophe of the Great Leap Forward (1958-1960) where upwards of 30 million Chinese civilians died, and the death of the Chinese Communist Party's dominant leader Mao Zedong in 1976. In recent years, intellectuals and party members have been given increasing leeway to express their opinions, and Lawrence R. Sullivan takes advantage of this new research to provide a comprehensive history of one of the world's most fascinating political movements. The *Historical Dictionary of the Chinese Communist Party* contains a chronology, an introductory essay, an appendix, an extensive bibliography, and more than 400 cross-reference dictionary entries on key people, places, and institutions. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Chinese Communist Party.

China's Changing Political Landscape Cheng Li, 2009-08-01 While China's economic rise is being watched closely around the world, the country's changing political landscape is intriguing as well. Forces unleashed by market reforms are profoundly recasting state-society relations. Will the Middle Kingdom transition rapidly, slowly, or not at all to political democracy? In *China's Changing Political Landscape*, leading experts examine the prospects for democracy in the world's most populous nation. China's political transformation is unlikely to follow a linear path. Possible scenarios include development of democracy as we understand it, democracy with more clearly Chinese characteristics, mounting regime instability due to political and socioeconomic crises, and a modified authoritarianism perhaps modeled on other Asian examples such as Singapore. Which road China ultimately takes will depend on the interplay of socioeconomic forces, institutional developments, leadership succession, and demographic trends. Cheng Li and his colleagues break down a number of issues in Chinese domestic politics, including changing leadership dynamics, the rise of business elites, increased demand for the rule of law, and shifting civil-military relations. Although the contributors clash on many issues, they do agree on one thing: the political trajectory of this economic powerhouse will have profound implications, not only for 1.3 billion Chinese people but also for the world as a whole.

Choosing China's Leaders Chien-wen Kou, Xiaowei Zang, 2013-10-08 Political elites are a key topic in contemporary China studies and have been investigated in relation to factional politics, generation politics, technocracy, and crucially, institutionalization. The institutionalization of elite replacement began in China

in the 1980s and quickly accelerated after the early 1990s as mechanisms emerged to regulate political elites entry and exit including age limits term limits and step by step promotion By examining the various processes of elite selection this book explores the role played by institutionalization in elite recruitment promotion and turnover in China While existing studies have developed our understanding of Chinese elite politics two key puzzles regarding institutionalisation remain Although institutionalisation is recognised as an important trend in Chinese politics there is as yet no theoretical framework to explain the forces that have brought about and sustained this Further it is unclear how the process of institutionalisation has impacted on factional politics and how factions would continue to operate within the parameters of formal politics Drawing on a wide range of studies this book looks at Politburo members senior People s Liberation Army officers provincial leaders heads of major central state owned enterprises and Youth League affiliates to provide a comprehensive understanding of elite recruitment and mobility in contemporary China This book will be of great interests to students and scholars of Chinese politics and government Chinese studies and Asian politics more broadly

China Under Mao Andrew George

Walder,2015-04-06 China s Communist Party seized power in 1949 after a long period of guerrilla insurgency followed by full scale war but the Chinese revolution was just beginning China Under Mao narrates the rise and fall of the Maoist revolutionary state from 1949 to 1976 an epoch of startling accomplishments and disastrous failures steered by many forces but dominated above all by Mao Zedong Walder convincingly shows that the effect of Maoist inequalities still distorts China today It will be a mind opening book for many and is a depressing reminder for others Jonathan Mirsky The Spectator Andrew Walder s account of Mao s time in power is detailed sophisticated and powerful Walder takes on many pieces of conventional wisdom about Mao s China and pulls them apart What was it that led so much of China s population to follow Mao s orders in effect to launch a civil war against his own party There is still much more to understand about the bond between Mao and the wider population As we try to understand that bond there will be few better guides than Andrew Walder s book Sober measured meticulous in every deadly detail it is an essential assessment of one of the world s most important revolutions Rana Mitter Times Literary Supplement

The Current State of the Chinese Communist Party in

the Countryside Ignatius Wibowo,2000 This volume discusses the changing role of the village level Chinese Communist Party secretaries in the countryside Rural reforms since 1978 especially the dismantling of the rural commune in the early 1980s have reshaped the social economic and political landscapes of rural China Economic reforms have led to gradual erosion of the power of the party secretaries reduced their income advantages and at the same time increased the complexity and difficulty of their tasks The issue of incentive has emerged for talented people to remain party secretaries The political implications according to the author are a gradual transformation of the nature of the CCP and its turning from a vanguard party to a rearguard party that manages things from the sidelines and in an ad hoc fashion

Rethinking Chinese

Politics Joseph Fewsmith,2021-06-17 A comprehensive but accessible examination of how elite Chinese politics work

covering the period from Deng Xiaoping to Xi Jinping **The Cultural Revolution at the Margins** Yiching Wu, 2014-06-09 The Cultural Revolution began from above yet it was students and workers at the grassroots who advanced the movement's radical possibilities by acting and thinking for themselves Resolving to suppress the resulting crisis Mao set events in motion in 1968 that left out in the cold those rebels who had taken it most seriously Yiching Wu shows **China's Civil Service Reform** Wang Xiaohui, 2012 As part of China's overall reform process China's civil service has also been reformed beginning in the late 1970s undergoing a major change in 1993 with the implementation of a new Civil Service System with the reforms continuing to unfold thereafter This book based on extensive original research outlines the civil service reforms and assesses their effectiveness China's Enterprise Reform You Ji, 2013-04-15 China's basic work units collectively known as the danwei system have undergone significant reform particularly since 1984 The author examines how this system operates and how reform is generating change in the party at grassroots level The author demonstrates how China's post Mao reforms have produced a quiet revolution from below as the process of political and economic liberalization has accelerated This book presents new research findings that will be invaluable to those wishing to understand the nature of change in China

China Under Hu Jintao Tun-jen Cheng, Jacques deLisle, Deborah Brown, 2006 The fourth generation of leaders of the People's Republic of China while benefiting from the prestige of China's entry into the World Trade Organization and the honor of hosting the 2008 Olympic Games also needs to contemplate the sobering side effects of a rapid and internationally interdependent economy and a troubled and only partly reformed political system This important book approaches the study of the PRC under Hu Jintao in a two fold manner by examining the new political parameters within which the party state functions and by analyzing the prominent issues OCo at home and abroad OCo that are commanding the attention of China OCo's new leaders The book tackles a comprehensive range of topics including elites institutions and state OCo society relations politics and the political implications of economic change domestic politics and foreign relations *China's Leaders* Cheng Li, 2001-02-28 Who will govern China at the dawn of the twenty first century What are the social backgrounds and career paths of the new generation of leaders How do they differ from their predecessors in their responses to perplexing economic and sociopolitical challenges Drawing upon a wealth of both quantitative and qualitative data on the so called fourth generation of leaders those who were young during the Cultural Revolution Cheng Li sheds valuable light on these key questions He shows that this group is more diversified than previous generations of CCP leaders in formative experiences political solidarity ideological conviction and occupational background The author explores the contradictions between political leaders and non elite peers in the same generation those approaching middle age who were barred from education during the Mao era and now often are unemployed and disenchanted with the government The book concludes with the intriguing notion that this generation of leaders may have a better understanding of its peers needs and concerns and therefore may make the regime more accountable to its people thus contributing to rather than opposing democratic

development Globalization and Public Sector Reform in China Kjeld Erik Brødsgaard, 2014-04-24 This book analyses public sector reform comprehensively in all parts of China's public sector government bureaucracy public service units and state owned enterprises It argues that reform of the public sector has become an issue of great concern to the Chinese leaders who realize that efficient public administration is key to securing the regime's governing capacity and its future survival The book shows how thinking about public sector reform has shifted in recent decades from a quantitative emphasis on small government which involved the reduction in size of what was perceived as a bloated bureaucracy to an emphasis on the quality of governance which may result in an increase in public sector personnel The book shows how although Western ideas about public sector reform have had an impact Chinese government continues to be best characterized as state capitalism with the large state owned enterprises continuing to play an important and increasing role in the economy and in business However state owned enterprises no longer provide care for large numbers of people from the cradle to the grave finding an alternative efficient way of delivering basic welfare and health care is the big challenge facing China's public sector

Eventually, you will categorically discover a supplementary experience and ability by spending more cash. nevertheless when? do you understand that you require to get those all needs taking into consideration having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will guide you to understand even more just about the globe, experience, some places, afterward history, amusement, and a lot more?

From Revolutionary Cadres To Party Technocrats In Socialist China Introduction

In the digital age, access to information has become easier than ever before. The ability to download From Revolutionary Cadres To Party Technocrats In Socialist China has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download From Revolutionary Cadres To Party Technocrats In Socialist China has opened up a world of possibilities. Downloading From Revolutionary Cadres To Party Technocrats In Socialist China provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading From Revolutionary Cadres To Party Technocrats In Socialist China has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download From Revolutionary Cadres To Party Technocrats In Socialist China. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading From Revolutionary Cadres To Party Technocrats In Socialist China. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading From Revolutionary Cadres To Party Technocrats In Socialist China, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable

antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download From Revolutionary Cadres To Party Technocrats In Socialist China has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About From Revolutionary Cadres To Party Technocrats In Socialist China Books
