From The Earth To The Moon:

From the Earth to the Moon, Direct in Ninety-Seven Hours and Twenty Minutes: and a Trip Round It Jules Verne, 2022-06-13 *From the Earth to the Moon* is a novel by Jules Verne telling the story of the Baltimore Gun Club a post American Civil War society of weapons enthusiasts and their attempts to build an enormous Columbiad space gun to send to the Moon Three people have to be on board the Gun Club's president his Philadelphian armor making rival and a French poet The book is notable for Verne's attempt to do rough calculations and some of the figures were remarkably accurate From the Earth to the Moon: Direct in Ninety-Seven Hours and Twenty Minutes and a Trip Round It Jules Verne, Adventures of three men accompanied by two dogs shot to the moon in a specially constructed shell from enormous gun **From the Earth to the Moon, and a Trip Around It** Jules Verne, 2013-12-24 Jules Verne was an incredible visionary His two stories regarding the first attempts by man to leave the surface of the Earth travel across a vast distance and visit our satellite were incredible for the time in which they were written But even more so in that Verne predicted that Florida in the United States would be the point of takeoff and that three men would take part in the journey There are many other surprises in store for the reader and though Verne was incorrect on a few details it is almost as if he had visited his future and witnessed the events This is a combination of the two stories detailing the trip and the return to our planet Eighty illustrations accompany the text This is a fine translation of Verne's original French writings with only minor interference by several editors over the years to standardize spellings and correct a few obvious typos From the Earth to the Moon, 1970 *From the Earth to the Moon* Jules Verne, 2020-06-23 *From the Earth to the Moon* is one of the first books discussing space traveling from a scientific perspective Written by Jules Verne in the 19th century it is an essential book of adventures that made history for the visionary talent of its author A must read for anyone interested in science fiction and adventures in space This is the official edition in English without censorship external additions or changes to the original text *From the Earth to the Moon* Jules Verne, 2022-10-27 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *From the Earth to the Moon* Jules Verne, 1922

From the Earth to the Moon Jules Verne, 2011-03-02 Written almost a century before the daring flights of the astronauts Jules Verne's prophetic novel of man's race to the stars is a classic adventure tale enlivened by broad satire and scientific acumen When the members of the elite Baltimore Gun Club find themselves lacking any urgent assignments at the close of the Civil War their president Impey Barbicane proposes that they build a gun big enough to launch a rocket to the moon But

when Barbicane's adversary places a huge wager that the project will fail and a daring volunteer elevates the mission to a manned flight one man's dream turns into an international space race A story of rip roaring action humor and wild imagination From the Earth to the Moon is as uncanny in its accuracy and as filled with authentic detail and startling immediacy as Verne's timeless masterpieces 20 000 Leagues Under the Sea and Around the World in Eighty Days *From the Earth to the Moon and 'Round the Moon* (📖📖📖📖📖) Jules Verne,2011-03-15 From the Earth to the Moon French De la Terre la Lune 1865 is a humorous science fantasy novel by Jules Verne and is one of the earliest entries in that genre It tells the story of the president of a post American Civil War gun club in Baltimore his rival a Philadelphia maker of armor and a Frenchman who builds an enormous sky facing Columbiad space gun and launch themselves in a projectile spaceship from it to a Moon landing The story is also notable in that Verne attempted to do some rough calculations as to the requirements for the cannon and considering the comparative lack of any data on the subject at the time some of his figures are surprisingly close to reality However his scenario turned out to be impractical for safe manned space travel since a much longer muzzle would have been required to reach escape velocity while limiting acceleration to survivable limits for the passengers Includes a Biography of the Author *From The Earth To The Moon (Large Print)* Jules Verne,2008-01 *The English Encyclopædia* ,1802 *Encyclopaedia Perthensis; or, Universal dictionary of Knowledge.
