the steaming jungles of Asia the men of the KOYLI fought against the forces of all three of the dictatorships that came so close to conquering the world Before taking part in the fighting three battalions of KOYLI had left the regiment to become 53rd 57th and 94th Anti Aircraft Regiments within the Royal Artillery and 149th Armoured Regiment of the Royal Armoured Corps Thus the KOYLI comprised five infantry battalions during the period of the world conflict They were ordinary men from the quiet towns and villages of Yorkshire who suddenly found themselves thrown into a deadly fight against the mightiest military machine the world had ever seen and their story is one of incredible hardship bravery and sacrifice in some of the most daunting and inhospitable places on Earth Illustrated throughout with over 100 photographs and maps this new history offers a unique and detailed look at one of the Second World War s most extraordinary regiments

Unlikely Liberators Masayo Umezawa Duus,2006-11-30 *Unlikely Liberators* is the action filled story of the men of the 100th Battalion and the 442nd Regimental Combat Team Not trusted to fight in the Pacific these sons of Japanese immigrants were sent instead to the European theater In the eyes of their own government and the Europeans they liberated they were an unlikely group of fighting men They nevertheless engaged the enemy with astonishing heroism winning battle after battle at Anzio Salerno Cassino and in the Vosges Mountains At the end of the war the 100th and the 442nd emerged as America s most decorated units They provided ample evidence of their patriotism to a country that had questioned their loyalty Masayo Duus begins her story with the formation of the Japanese American units which were an outgrowth of America s ambivalent attitude toward the entire Japanese American community at the outbreak of the war She recounts their experiences in training and during the early battles in Italy including the conflicts between Japanese American and Caucasian troops The final part of the story focuses on the battle in the Vosges forest where the 442nd fought fiercely to rescue the lost battalion of Texans hopelessly cut off by the enemy Based on extensive research in War Department archives and nearly three hundred interviews with veterans of the 100th and 442nd *Unlikely Liberators* first appeared in serialized form in Japan where it won the Bungeishunjusha Reader s Prize It is an absorbing and personalized account of young men suddenly separated from their families and friends often confused and sometimes suspicious about what the army wanted from them It portrays them as individuals confronting the multiple crises of war and social rejection and it shows that their greatest achievement was not their victory over a foreign enemy but over prejudice at home This book is a tribute to those

men who by their heroism reestablished for all Japanese Americans their personal dignity as full citizens in the country of their birth Monthly Catalogue, United States Public Documents ,1990 Anatomy of Victory John D.

Caldwell,2018-11-09 This groundbreaking book provides the first systematic comparison of America s modern wars and why they were won or lost John D Caldwell uses the World War II victory as the historical benchmark for evaluating the success and failure of later conflicts Unlike WWII the Korean Vietnam and Iraqi Wars were limited but they required enormous national commitments produced no lasting victories and generated bitter political controversies Caldwell comprehensively examines these four wars through the lens of a strategic architecture to explain how and why their outcomes were so dramatically different He defines a strategic architecture as an interlinked set of continually evolving policies strategies and operations by which combatant states work toward a desired end Policy defines the high level goals a nation seeks to achieve once it initiates a conflict or finds itself drawn into one Policy makers direct a broad course of action and strive to control the initiative When they make decisions they have to respond to unforeseen conditions to guide and determine future decisions Effective leaders are skilled at organizing constituencies they need to succeed and communicating to them convincingly Strategy means employing whatever resources are available to achieve policy goals in situations that are dynamic as conflicts change quickly over time Operations are the actions that occur when politicians soldiers and diplomats execute plans A strategic architecture Caldwell argues is thus not a static blueprint but a dynamic vision of how a state can succeed or fail in a conflict United States Army in World War II. ,1965
