Australian boat arrivals to offshore processing centres If such children do make it to Australia the processes for identifying children travelling alone are inadequate with too much reliance placed on the self identification of such children No child victim of trafficking has been identified in Australia since 1994 Australia's refugee status determination system was established with adult asylum seekers as the norm Children face obvious disadvantage in both articulating their story and in being heard At the crucial first point of contact with authorities children are required to articulate their need for protection without either an advisor or an effective guardian Case studies of children within the asylum process also suggest that immigration officials and officials at appellate level have been poorly trained and have lacked the skills to deal with child asylum seekers with appropriate sensitivity Another barrier faced by these children is legal questions remain as to how well the international definition of refugee has been read to accommodate the particular experiences of children It is hoped that this report will encourage Australian officials to think seriously about children as refugees in their own right most particularly when the children are travelling alone This Report was funded by the MacArthur Foundation Chicago the Australian Research Council and the Myer Foundation Also available *Seeking Asylum Alone A Comparative Study Unaccompanied and Separated Children and Refugee Protection in Australia the UK and the US* by Jacqueline Bhabha and Mary Crock **The New Yorker**, 2005 *Frommers Australia 2005* Marc Llewelly, 2005 The best of Australia planning your trip to Australia **Frommer's Turkey** Lynn A. behavior triggered by supply side contexts e.g. Airbnb The book considers tourism micro segments as consumer tribes i.e. as symbolic communities in which individuals are embedded and loosely bound together As there is limited research on the collectivist perspective on special interest tourism consumption in the first part the book's conceptual theoretical discourse contributes to a better understanding of groupings in tourism behavior but also collectives that are not unified by a common tourism motivation Presenting international examples the book explores in Part 2 the group culture of a range of tourist tribes by describing emerging tourism micro segments identifying shared identities and analyzing their collective mechanisms

Beyond the Risk Paradigm in Mental Health Policy and Practice Sonya Stanford, Elaine Sharland, Nina Rovinelli Heller, Joanne Warner, 2017-03-29 Modern society is increasingly preoccupied with fears for the future and the idea of preventing the worst The result is a focus on attempting to calculate the probabilities of adverse events occurring in other words on measuring risk Since the 1990s the idea of risk has come to dominate policy and

practice in mental health across the USA Australasia and Europe In this timely new text a group of international experts examines the ways in which the narrow focus on specific kinds of risk such as violence towards others perpetuates the social disadvantages experienced by mental health service users whilst at the same time ignoring the vast array of risks experienced by the service users themselves Benefitting from the authors extensive practice experience the book considers how the dominance of the risk paradigm generates dilemmas for mental health organizations as well as within leadership and direct practice roles and offers practical resolutions to these dilemmas that both satisfy professional ethics and improve the experience of the service user Combining examination of key theories and concepts with insights from front line practice this latest addition to Palgrave s Beyond the Risk Paradigm series provides an important new dimension to debates on mental health provision
