The Image of the River in Latin/o American Literature Jeanie Murphy, Elizabeth G. Rivero, 2017-12-20 Although fictional and often fantastic representations of nature have been a distinguishing feature of Latin American literature for centuries ecocriticism understood as the study of literature as it relates to depictions of the natural world environmental issues and the ways in which human beings interact and identify with their natural surroundings did not emerge as a field of scholarly interest in the region until the end of the twentieth century This volume employs an ecocritical lens in order to explore and question the use of the river imagery in Latino and Latin American literature from the colonial period to our modern world creating a space in which to examine both its literal and figurative meanings associated as much with processes of a personal nature as with those of the collective experience in the region The slow meandering streams of nostalgia the raging currents of conflict or the stagnant waters of social decay are just a few of the ways in which the river has become an important symbol and inspiration to many of the region's writers This book offers a diverse collection of writings that through a trans historical and trans geographical

perspective allows us from the vantage point of the twenty first century to reflect on the rich and dynamic image of the river and by extension on the vital context of Latin o America its people and societies *Contemporary Hispanic Biography* Gale Group,2002

Representations and Images of Frontiers and Borders Katarzyna Nowak-McNeice,Alejandra María Aventín Fontana,2021-11-22 This collection gathers a variety of scholars representing various methodological perspectives and applying diverse critical lenses to analyze the idea of borders borderlands frontiers and liminal space as they are represented in literature and philosophy The idea of the border and frontier is perhaps more important than ever under the siege of COVID 19 with shattered illusions of a post racial world when a global effort is required as a response to a crisis that does not respect national or regional borders we need to reconsider what frontiers and borders mean to us and how to best understand them so that they do not divide but point to areas of common knowledge collective experiences and shared humanity Drawing upon examples from different continents Africa the Americas Asia and Europe and from diverse specific places such as the Mexico US border or the contested Palestinian frontiers and using a variety of critical perspectives evoking Gloria Anzaldua Jorge Luis Borges and Edward Said for instance this volume explores the idea of frontiers and borders in order to comment on their representations in literature philosophy music and cinema and on the human condition in general

Castillo,María Socorro Tabuenca Córdoba,2002 A transnational analysis with an emphasis on gender examines the work of women writers from both sides of the border writing in Spanish English or a mixture of the two languages whose work questions the accepted notions of border identities

Utopian Dreams, Apocalyptic Nightmares Miguel López-Lozano,2008 Utopian Dreams Apocalyptic Nightmares traces the history of utopian representations of the Americas first on the part of the colonizers who idealized the New World as an earthly paradise and later by Latin American modernizing elites who imagined Western industrialization cosmopolitanism and consumption as a utopian dream for their independent societies Carlos Fuentes Homero Aridjis Carmen Boullosa and Alejandro Morales utilize the literary genre of dystopian science fiction to elaborate on how globalization has resulted in the alienation of indigenous peoples and the deterioration of the ecology This book concludes that Mexican and Chicano perspectives on the past and the future of their societies constitute a key site for the analysis of the problems of underdevelopment social injustice and ecological decay that plague today s world Whereas utopian discourse was once used to justify colonization Mexican and Chicano writers now deploy dystopian rhetoric to interrogate projects of modernization contributing to the current debate on the global expansion of capitalism The narratives coincide in expressing confidence in the ability of Latin American and U S Latino popular sectors to claim a decisive role in the implementation of enhanced measures to guarantee an ecologically sound ethnically diverse and just society for the future of the Americas
